

WATERFURNACE KNOWS THAT TRAINING MATTERS

Thanks to the 30% federal tax credit, a flood of inexperienced, questionably trained dealers are now offering geothermal. While some companies allow *anyone* to sell their products, WaterFurnace requires an ongoing commitment to the most extensive training and education programs in the industry. WaterFurnace only invests in dealers who are passionate about offering the finest in products and service, and are less concerned with simply being the cheapest. That's why WaterFurnace is the most recognized and respected name in residential geothermal. Or maybe it's because WaterFurnace units use the clean, renewable energy found in your backyard to provide savings up to 70% on heating, cooling and hot water. Or is it thanks to the industry's best warranty? Decide for yourself. Contact the experts at Love's Heating & Air, Inc.... or be prepared to deal with a flood of your own.
